Play Bingo!

By the end of this session, you will:

- ☐ Come to know your classmates as the community that you will rely on for collaborative learning.
- ☐ Know the staff who will be providing holistic support throughout the program.
- ☐ Understand the minimum requirements in order to successfully graduate from this boot camp.
- ☐ Be able to list ways to get help and support at your moments of need.

Sasha Slacum

Student Success Manager

My goal is to help you successfully complete the program

I like the outdoors and my puppy Pippa.

Activity: Landing Zones

1. Choose one day of the week when your class is NOT held.
2. Break into groups by chosen day.
3. As a group, decide on a meeting time and place for your study group on that specific day of the week.
4. Share with the class. Post in your Slack and pin.
5. If time allows, confirm each person as a solid study plan in place to be successful in class.

PROGRESSION OF CAREER SERVICES

Minimum Graduation Requirements:

☐

Miss no more than 4 classes

☐

Have no more than 2 incomplete homeworks

☐

Hold at least a 70% average on homeworks

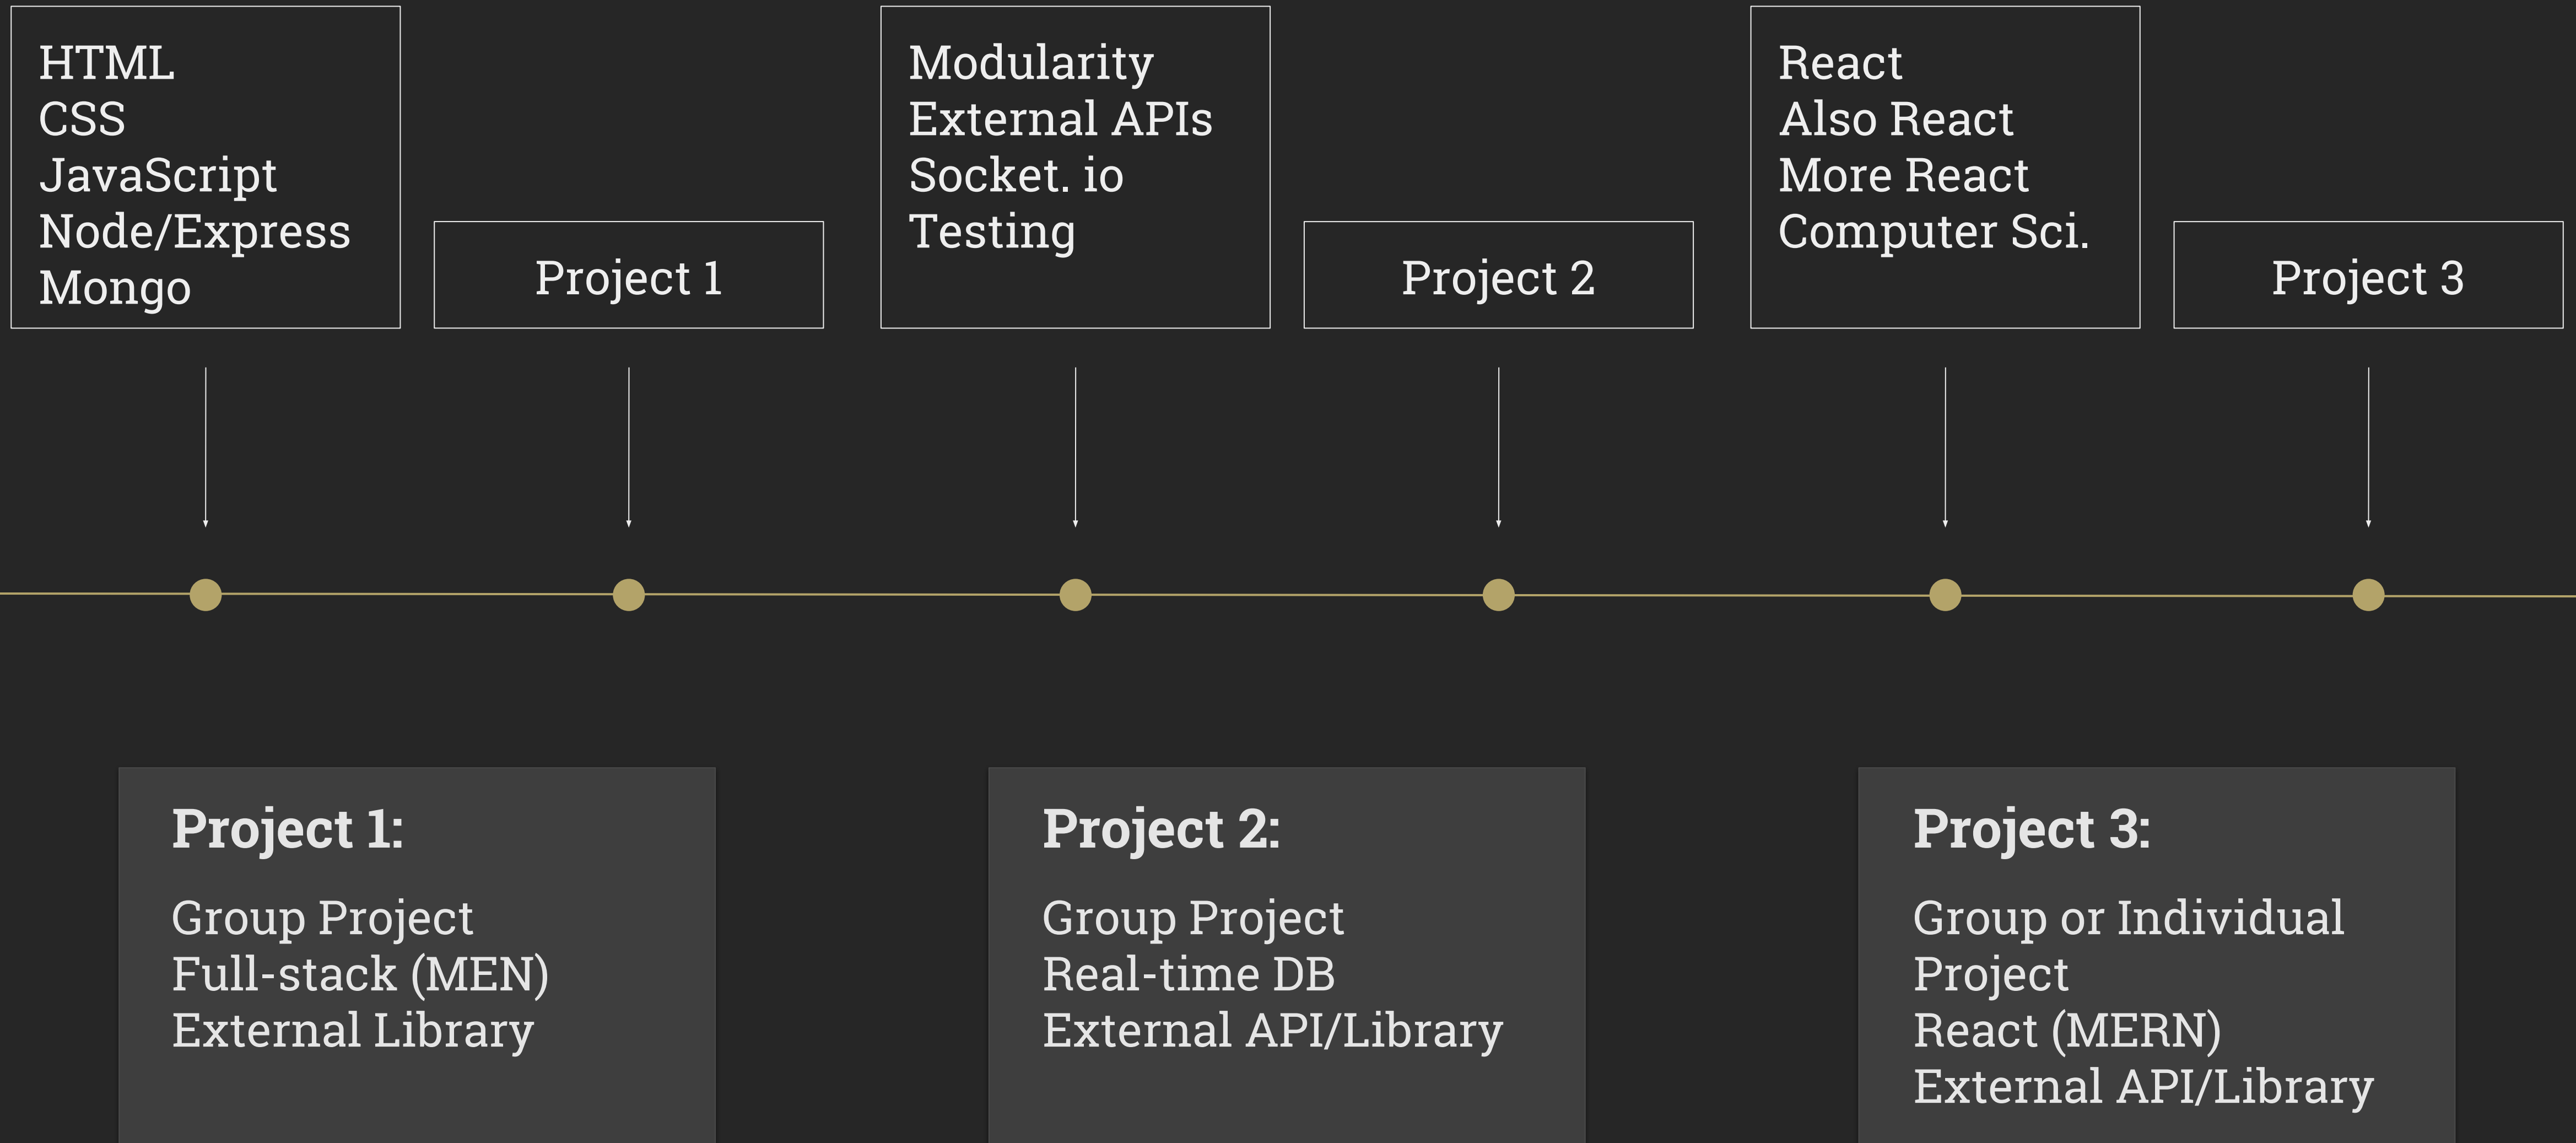

☐

Hold at least a 70% average on group projects

☐

Participate in all projects

COURSE TIMELINE

Session Objectives Completed:

Come to know your classmates as the community that you will rely on for collaborative learning.

Know the staff who will be providing holistic support throughout the program.

Understand the minimum requirements in order to successfully graduate from this bootcamp.

Be able to list ways to get help and support at your moments of need.

Pre-Work

Software Checklist

At this point, you should have each of these installed:

- ☐ Slack
- ☐ Visual Studio Code
- ☐ Git for Version Control
- ☐ Git Bash (Windows) or Terminal (Mac)
- ☐ Node.js
- ☐ Heroku-CLI
- ☐ Google Chrome

Accounts Checklist

You should also now have accounts for:

- ☐ GitHub (with SSH Integration)
- ☐ Heroku
- ☐ LinkedIn
- ☐ Stack Overflow

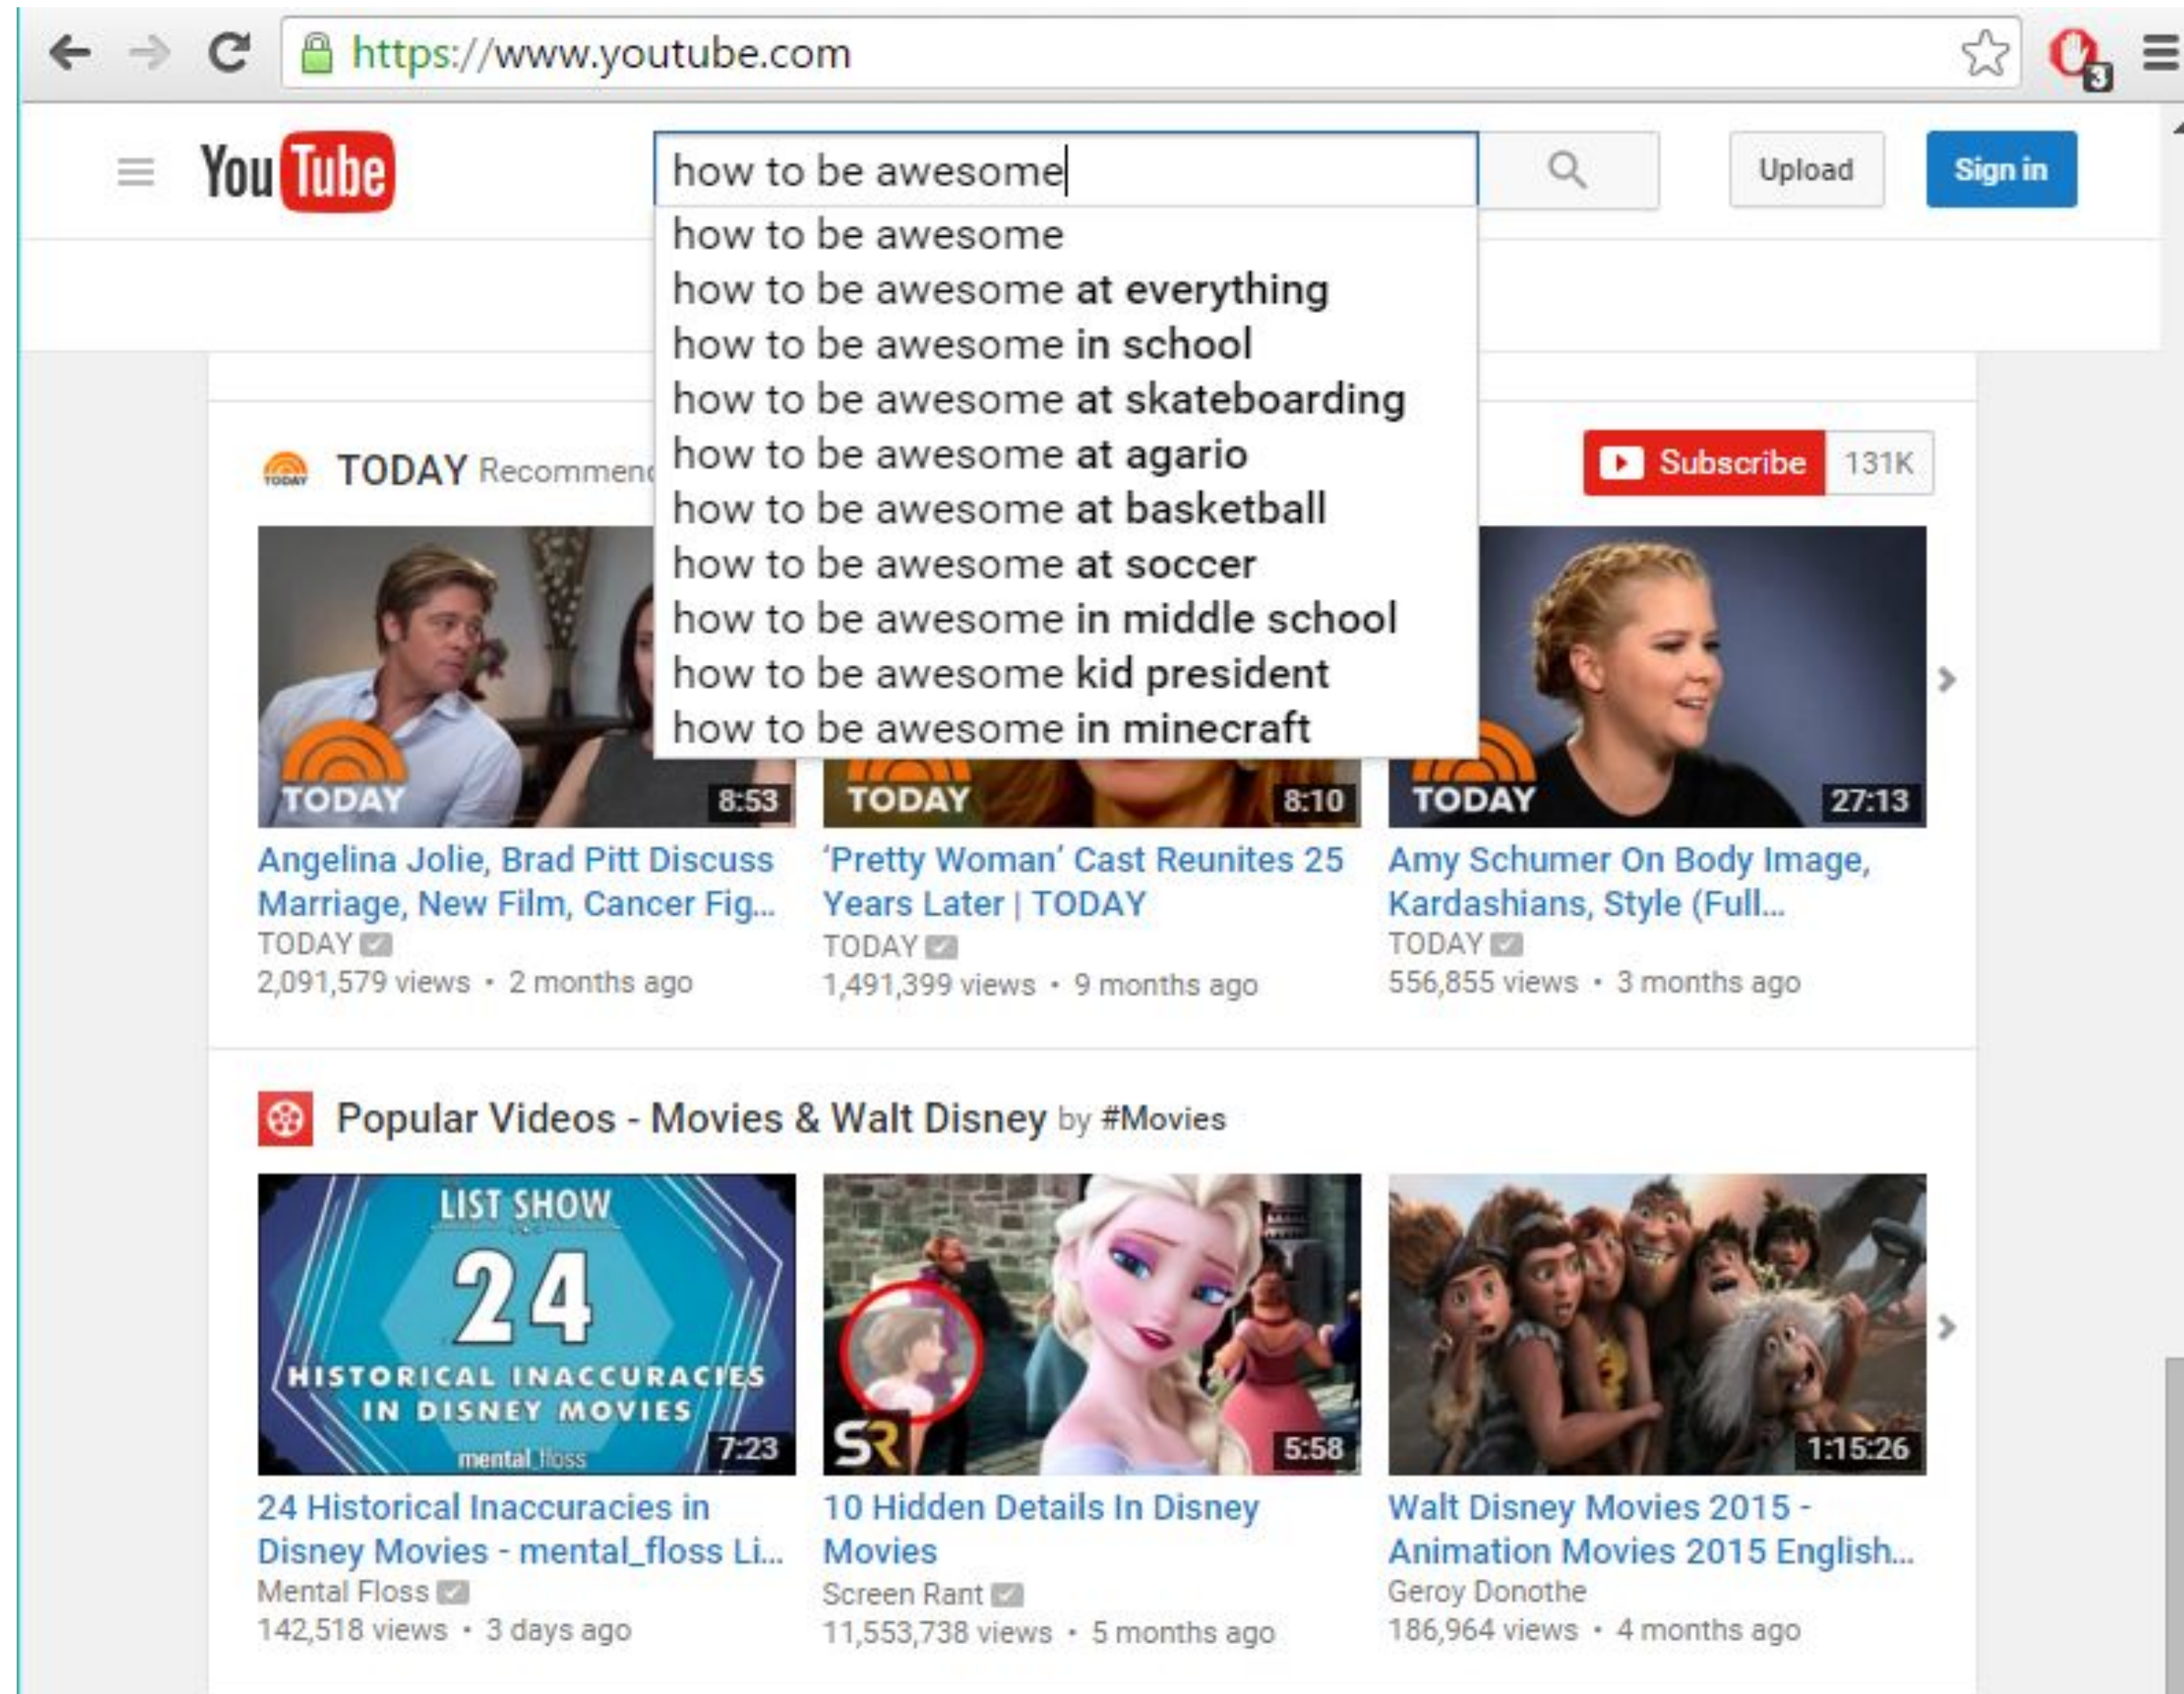

Self-Check

Let's do some quick checks of the following

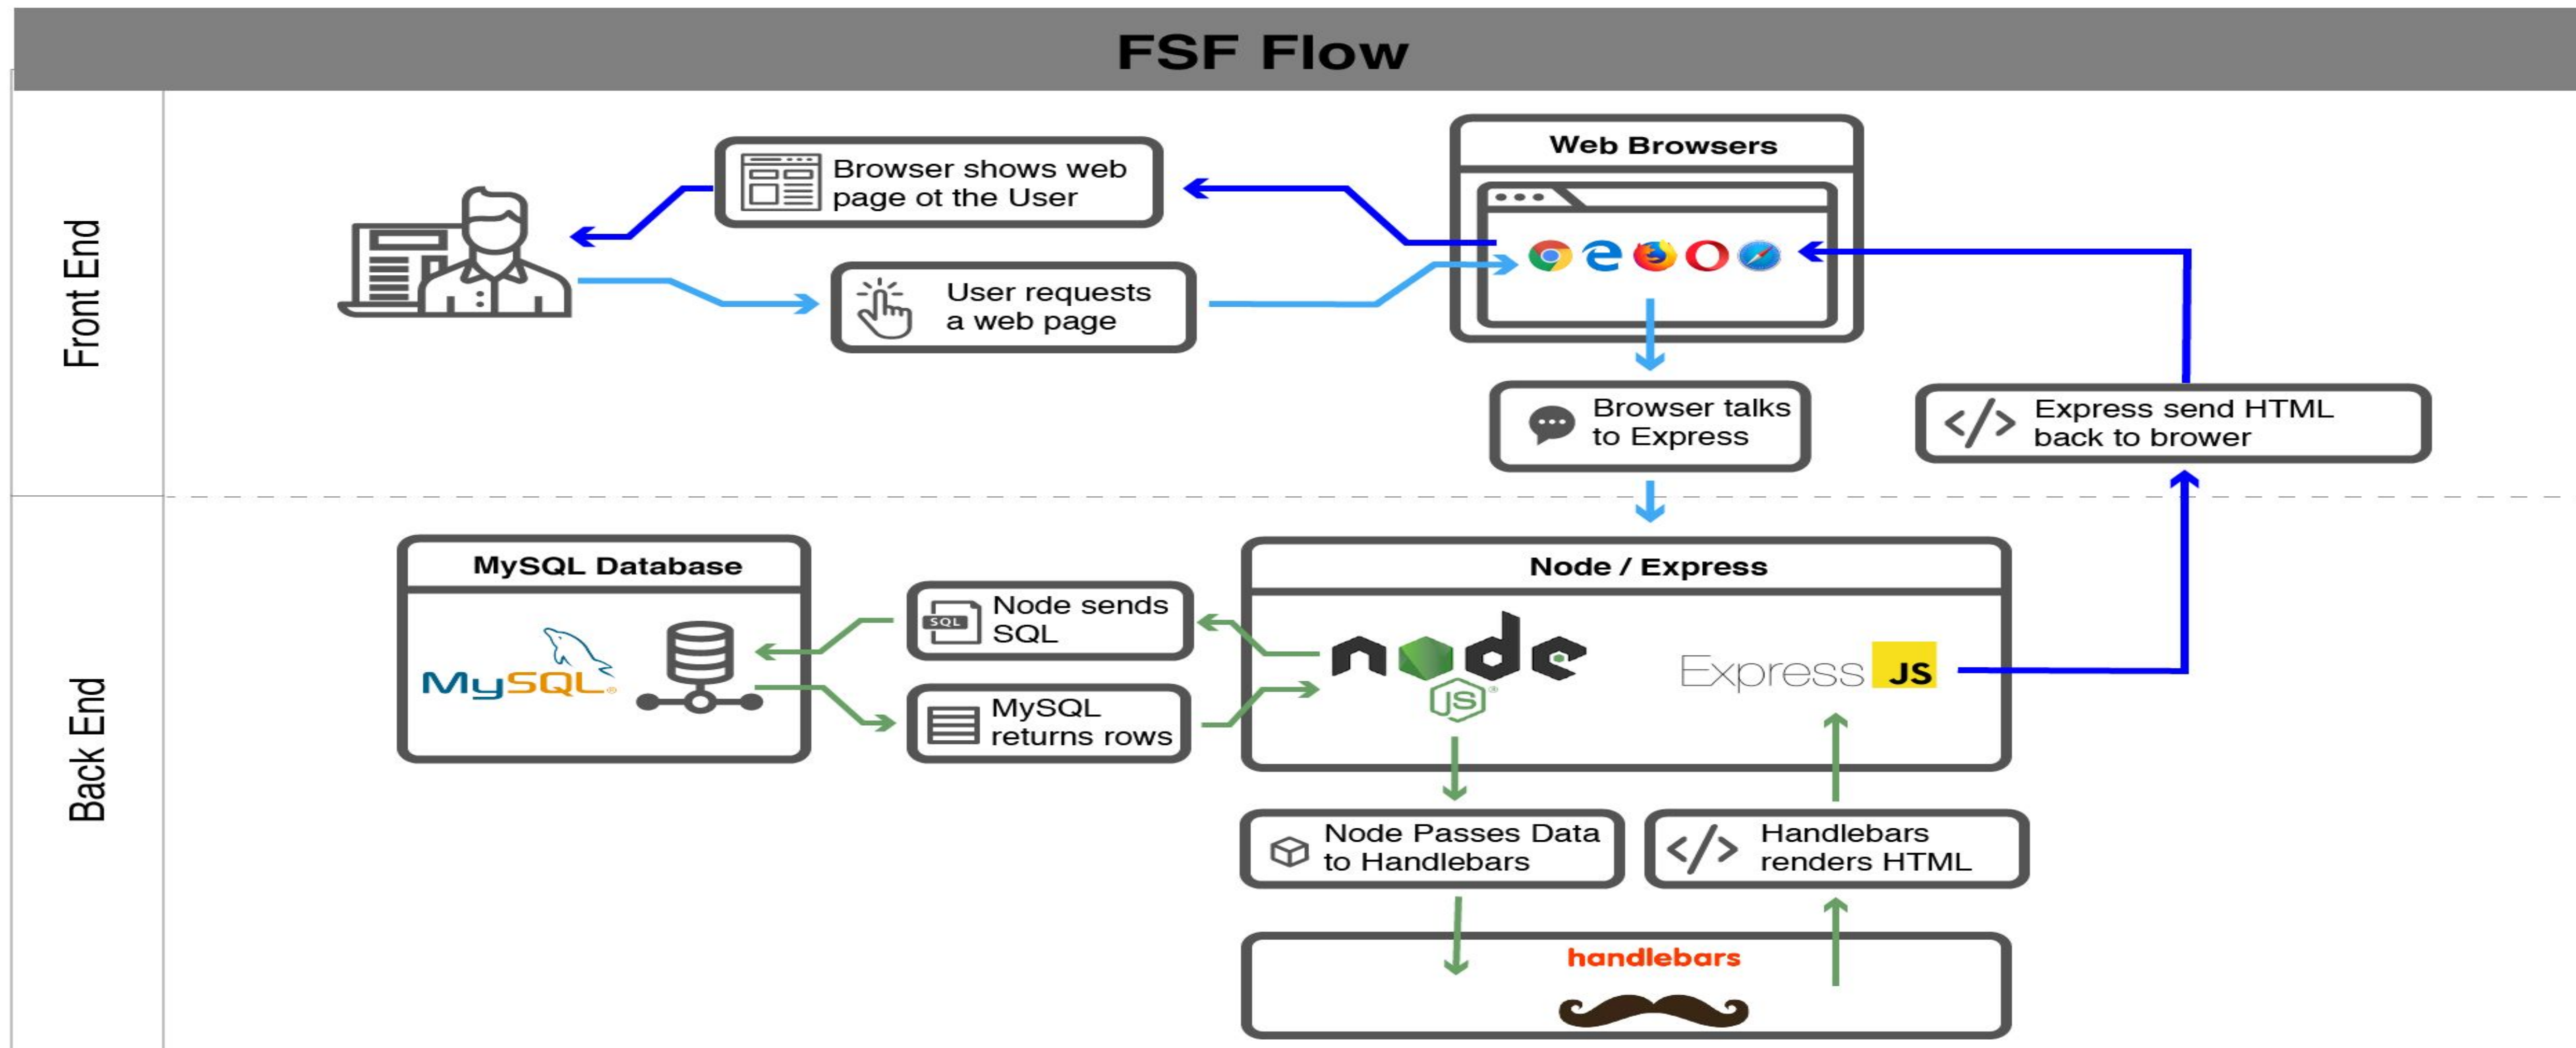

- ✓ Visual Studio Code Check
- ✓ Git Bash / Terminal Check
- ✓ Node Check
- ✓ Git Check
- ✓ Heroku Check

On the Modern Web

The “Magic” of YouTube

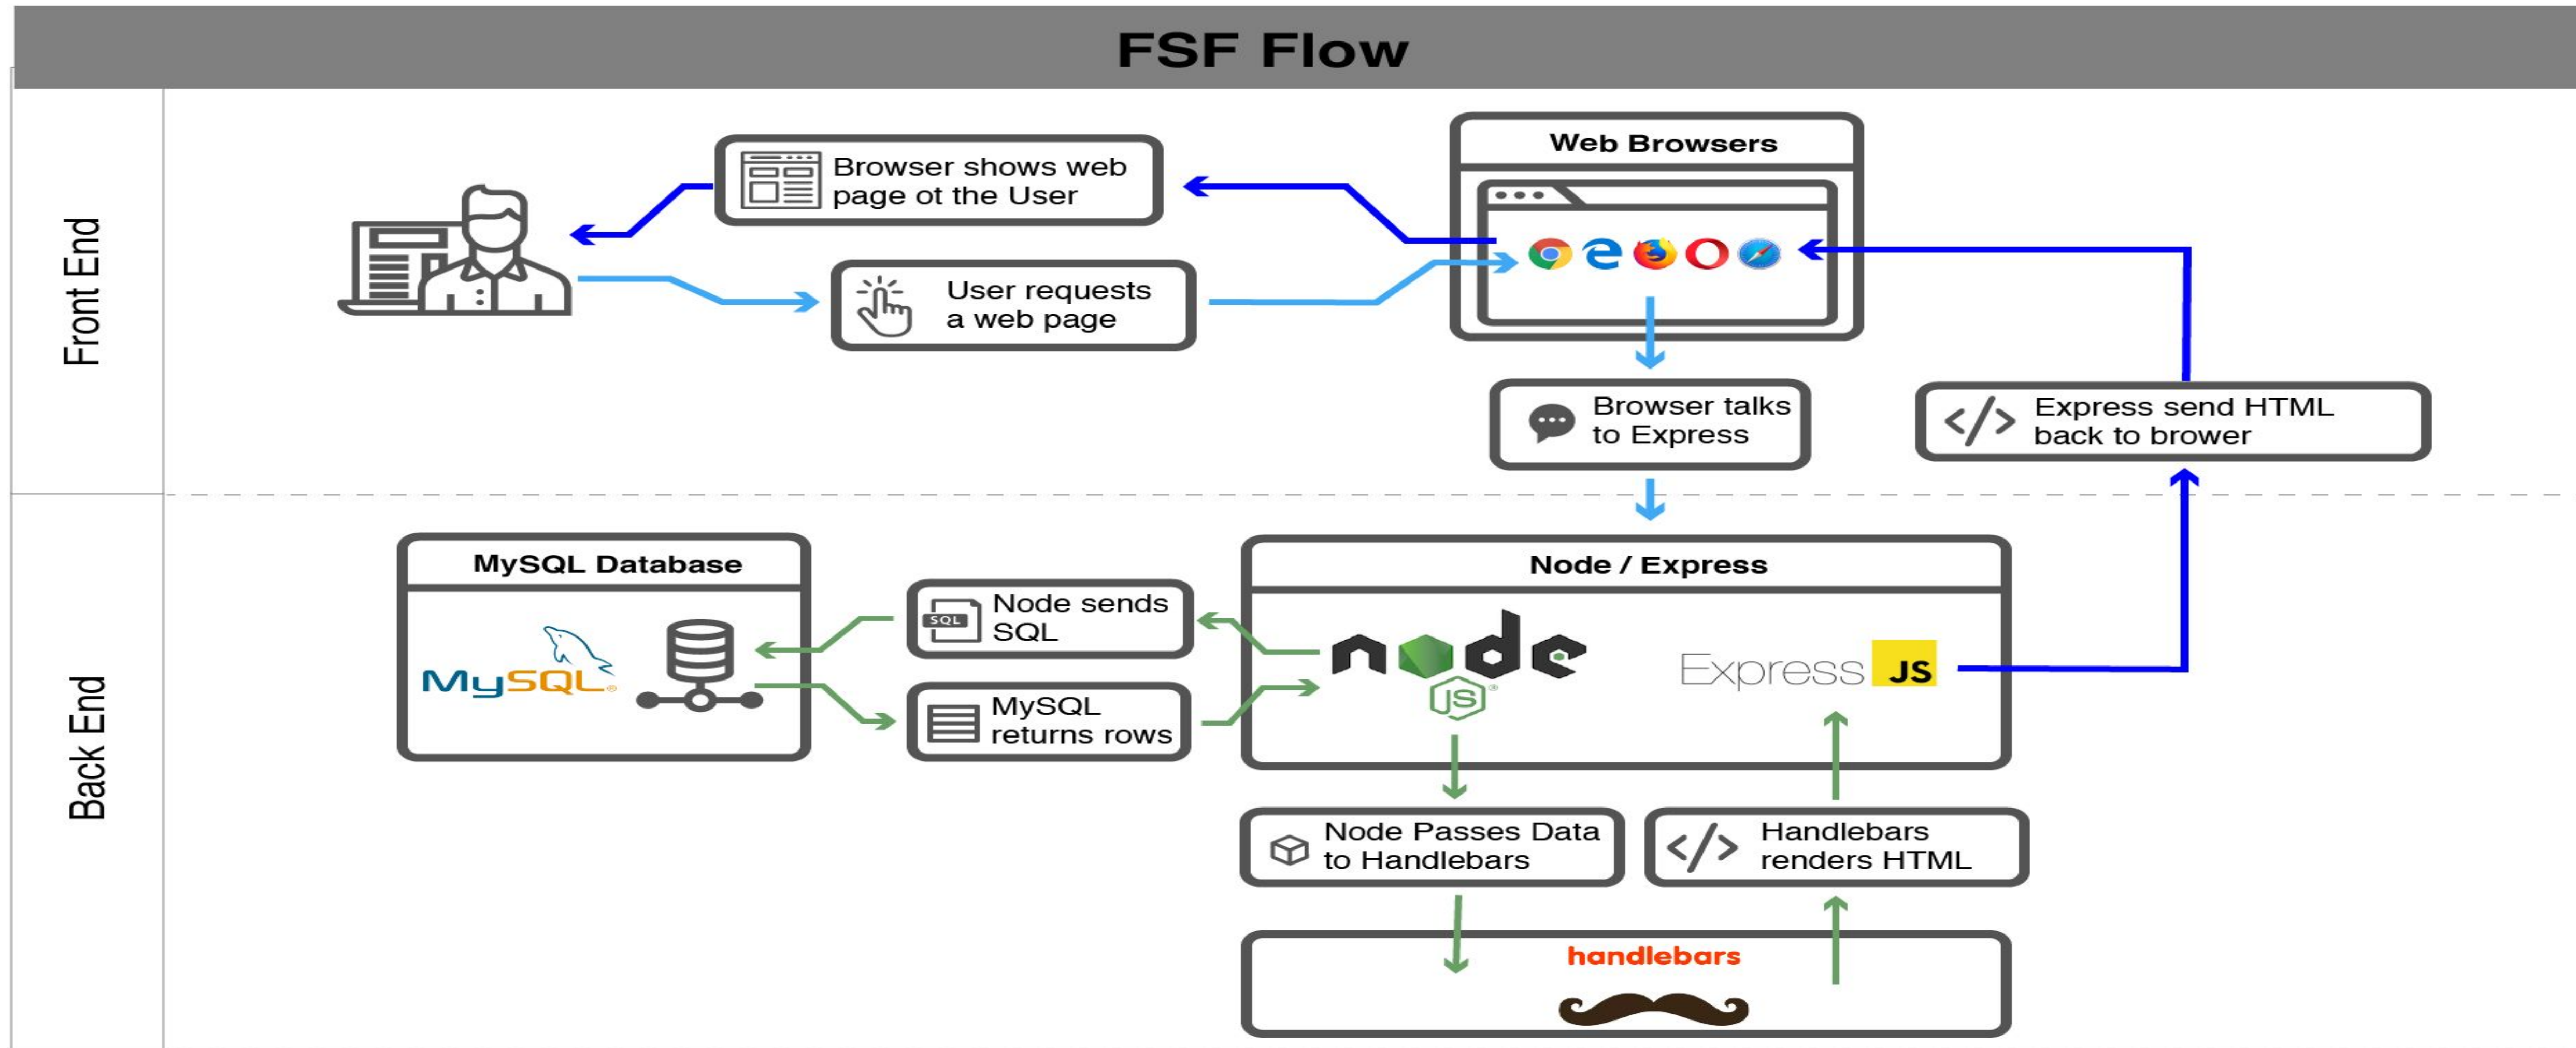

Full-Stack Development

In modern **web apps**, there's a constant back-and-forth communication between two key components: the visuals displayed on the user's browser (**frontend**) and the data and logic stored on the server (**backend**).

Full-Stack Development

Full-Stack Development is the concept of building every aspect of the web application – from the visuals and interactions, to the data transfer and processing.

Full-Stack Development

The Browser

- HTML
- CSS
- JavaScript
- jQuery
- Bootstrap
- SEO

API Interaction

- APIs (Consuming)
- JSON
- AJAX
- Real Time Cloud Database via Firebase

Cutting Edge Development

- React.js

Dev Tools

- Heroku
- Git
- GitHub

Databases

- MySQL
- MongoDB

Server Side

- Templating Engines
- Sessions
- Writing tests
- Node.js
- Express.js
- Creating APIs
- MVC
- User Authentication
- ORM (Sequelize)

CS Fundamentals

- Algorithms
- Design Patterns

Let's Get Crackin'

Instructor: Demo
(1-ConsoleCommands)

> YOUR TURN!

Activity: Get Situated | **Suggested Time:** 1 min

Assignment:

- Make a folder on your desktop named code.
- Put all of your code that you do inside of that folder.

Best Practices:

- Always use lowercase for folder and file names.
- Never put in spaces in your folder and file names.
- Use dashes to separate.

> YOUR TURN!

Activity: Console Commands | **Suggested Time:** 12 min

Assignment:

From the Terminal / Console and using only the command line, create:

- A new folder with the name of first_day_stuff.
- A new HTML file with the name of first_day.html.
- Open the current folder containing the new HTML file.

Bonus:

- Create multiple directories/folders with the names one_folder and second_folder in one command.
- Create multiple files with the names one.html and two.html in one command in the first_day_stuff directory.

Discuss with Neighbors

Hello, HTML

<title> Intro to HTML </title>

HTML

- **HTML** is one of the three base languages behind every single website.
- It defines all of the basic content and a *bit* of formatting.

> YOUR TURN

Assignment:

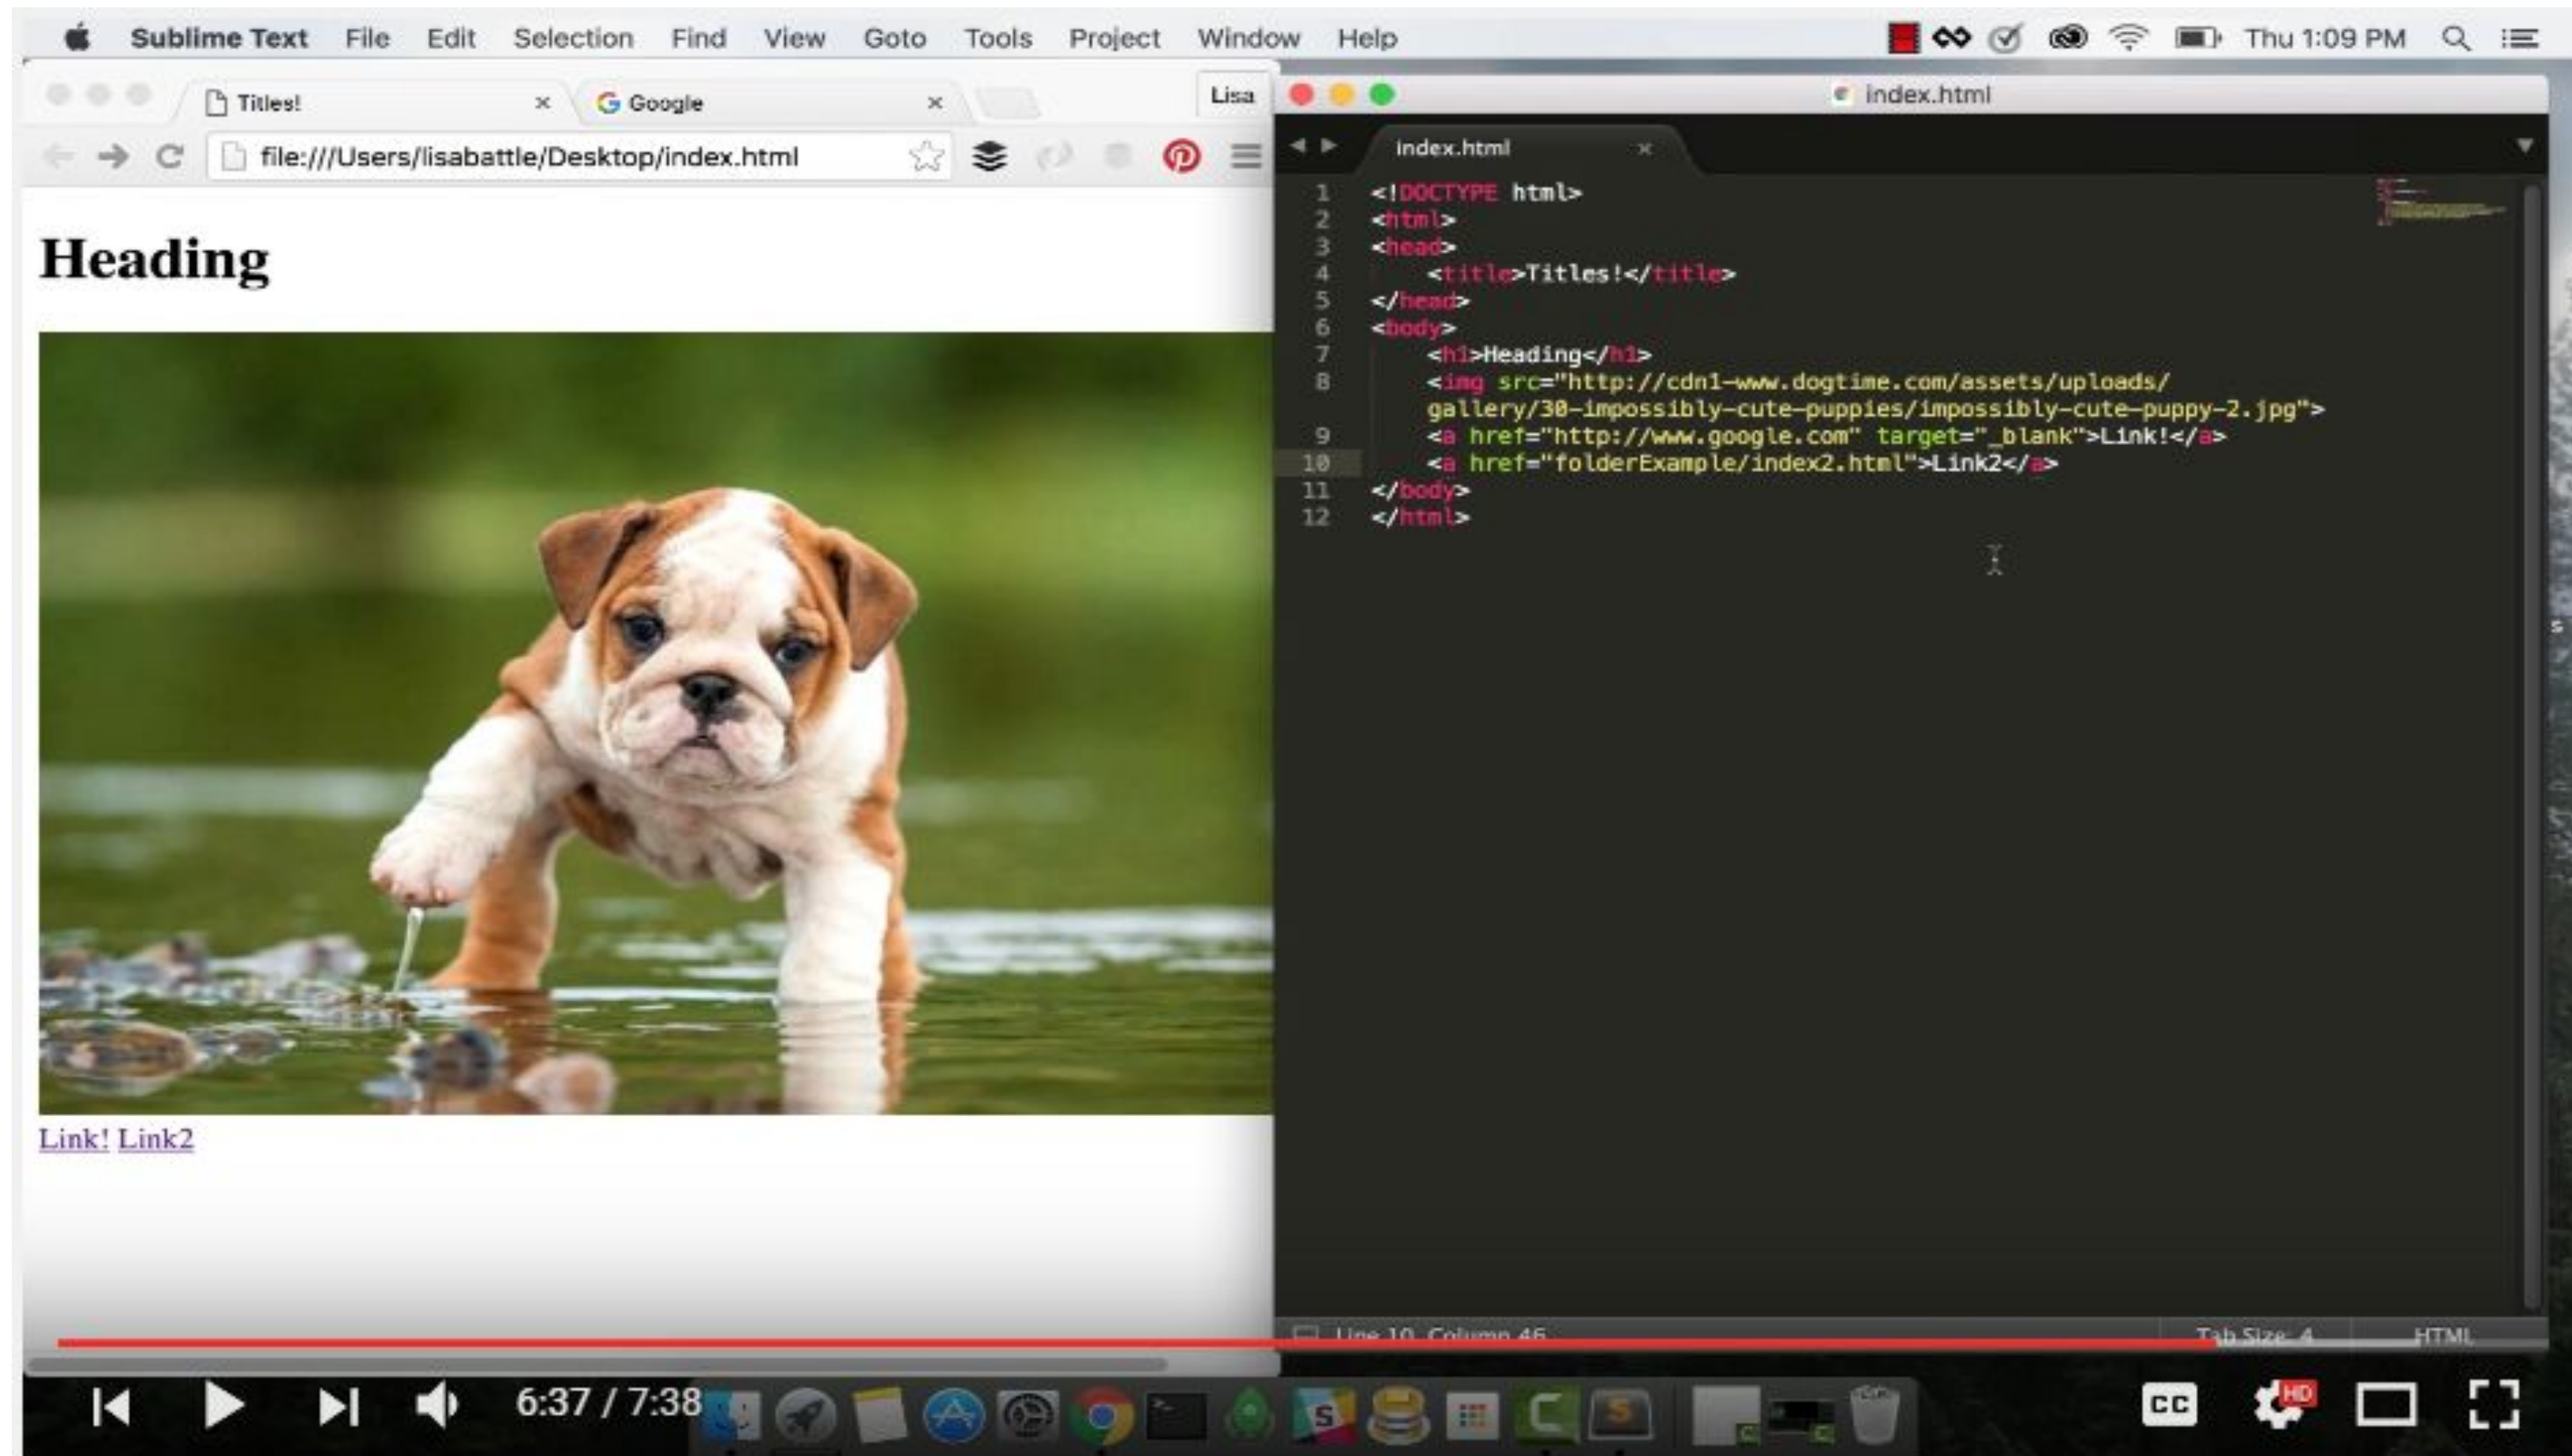

In a new HTML file, create the basic structure of an HTML document and include the following in it:

- DOCTYPE declaration.
- Head tag with a title tag.
- H1 tag with a title of your choice.
- Embed an image.
- Create the following three links on your page:
 - One link that has target="_blank" which opens a new tab when clicked
 - Make the second link bold.
 - Make the third link a placeholder so it goes nowhere.

Bonus:

- Create an ordered list of steps to make a sandwich.
- Create an unordered list of 5 bands/musicians you like.
- Create a table with 2 columns (animal class and animal name) and 4 rows of animals.
- Use an alternate way of separating links without line breaks.
- Embed a YouTube video of your favorite band/musician.

<title> Intro to HTML </title>

How'd it go?

Homework

Homework “Due”: Next Class

By Next Class:

- Figure out where the GitHub Repo is for our class.
- Re-do the Terminal example from class today.
- Re-do the HTML example from class today.
 - Watch the Walkthrough Video if you felt a bit lost.
